

# COVID-19 Protocol and Policies

**Exposure** is defined as having close contact with someone with who is COVID 19 positive. Close contact is defined as:

- You were within 6 feet of someone who has COVID-19 for a total of 15 minutes or more over a 24-hour period (individual exposures added together over 24-hour period, for example three 5-minute exposures) starting from two days before illness onset (or, for asymptomatic patients, two days prior to test specimen collection) until the time the patient is isolated
- You provided care at home to someone who is sick with COVID-19
- You had direct physical contact with someone who is sick with COVID-19 (hugged or kissed them)
- You shared eating or drinking utensils with someone who is sick with COVID-19
- Someone who is sick with COVID-19 sneezed, coughed, or somehow got respiratory droplets on you

## IF A CAMPER/STAFF APPEARS SICK:

- If someone is suspected of being sick, they will visit the nurse.
- If the nurse decides a camper presents symptoms related to COVID-19 (fever greater than 100.4°F, cough, shortness of breath, diarrhea, fatigue, headache, muscle aches, nausea, loss of taste or smell, sore throat, and/or vomiting), the camper will be separated from the group until a parent/guardian can pick them up from camp. They will be supervised by an adult from 6 feet apart.
  - **In accordance with our local health mandate: Children will not be permitted to return to camp until they have either had a negative COVID-19 PCR test OR have been fever- and fever medication- free for seventy-two (72) hours, other symptoms have improved, AND at least ten (10) days have passed since symptoms first appeared.**

## IF A CAMPER/STAFF HAS BEEN DIRECTLY EXPOSED TO COVID-19:

- **If boosted or recently vaccinated** (Moderna/Pfizer within 6 mos., J&J within 2 mos.): Wear a mask around others for 10 days, test on day five. If at any time symptoms become present, do not return to the MJCCA until a negative test has been received.
- **Campers/ Staff: If not boosted**, if vaccinated with Moderna/Pfizer more than 6 mos. ago or with J&J more than 2 mos. ago, or unvaccinated: Quarantine for five days. Test on day five. Then wear a mask around others for five more days. If at any time symptoms become present, do not return to the MJCCA until a negative test has been received.

**COMMUNICATION:** If a person in a group has tested positive for COVID-19, we request families contact [camps@atlantajcc.org](mailto:camps@atlantajcc.org) about COVID-positive results.

**REFUNDS:** NO refunds will be given to campers who are NOT vaccinated (if age eligible) if they must quarantine. Individuals who are fully vaccinated and have no COVID-19 symptoms are not required to quarantine or be tested.

## IF A CAMPER/STAFF TEST POSITIVE FOR COVID-19

- Regardless of vaccination status, you must isolate at home for five days.
- If you have no symptoms or your symptoms are resolved after five days, you can return to the MJCCA, but must wear a mask for five additional days.
- If you have a fever or any other symptoms, continue to stay home until those symptoms are resolved.

**COMMUNICATION:** If a person in a group tests positive for COVID-19, the cohort will be immediately notified via email and anyone who does not meet the vaccination standards above will be required to quarantine immediately. Everyone else will be required to wear a mask for the remainder of the week.

**REFUNDS:** NO refunds will be given to camper who are NOT vaccinated (if age eligible) if they must quarantine

### **MASK POLICY:**

- **The MJCCA has transitioned to a mask-optional policy as of March 14, 2022.**
- Should public health guidelines change regarding masks, we will reevaluate accordingly to reflect the advice of the CDC and local health agencies, using the latest metro Atlanta virus data.
